## TAKING STOCK

THE National Front has undergone many fundamental changes in its relatively short history, perhaps none so important as the purge of the last remaining undesirable elements, and deviants, in the latter half of last year.

Since that time our movement, and the organization, have made a wide range of solid gains in many aspects of our work.

Although it is early days yet, the staff of NFN feel that this is an appropriate time at which to briefly study the role of this paper, take a look at the part that we have played in some of the gains, and gauge our readers opinions.

### PROPAGANDA

It was, and still is, our belief that a serious political movement, if it is to succeed, needs a frequent, campaigning, educational and agitational paper for the purpose of influencing, organizing and mobilizing people of a sympathetic nature, as well as our zealots.

The art of propaganda is to strike a balance between that which is informative, easily read and digested, and that which is educational, agitational, and of necessity, more in-depth. The former, to appeal largely to first time readers and the latter to give a deeper insight of our movement, whilst at the same time appealing to, and being of practical help to our activists.

### IMPROVED

For our part, we feel that we have more or less struck the right balance under restraining circumstances, although we recognize that shorter, more light-weight articles have, and always will give way to more necessary propaganda.

This, unfortunately, will always be a recurring problem whilst there remains a criminal lack of space at our disposal, as there always will be with a mere eight pages.

By light-weight articles, we stress, we do not mean six or seven lines of irrelevant and moronic garbage that the more sleazier element of the national press, and those of the same mentality carry.

We use the term light-weight to describe the shorter articles commenting on current affairs, a regular letters section or a column detailing the latest effects of more Tory cuts, etc.

It is our opinion that these will come in time, as NFN gradually expands its number of pages. But for the time being, we have too much that has to be said directly relating to our day to day struggle, and not enough space for it, never mind anything else.

### SERIOUS

However, in the short space of time that the NF has become a serious political movement, it is already noticeable that the quality of new recruits has improved beyond all recognition. An extra bonus is that if anything, recruitment levels have also increased, as have sales of the paper.

Even so, NFN is your paper as much as ours, and we would appreciate hearing the comments of our readers. If there are any ways in which you think that the paper could be improved, please let us know at P O Box 41, Norwich, NR3 2AH.

**IMPORTANT NOTICE;** Whenever possible hand correspondence for the NF, NF News or Bookshops to your local NF contact, so that it can be delivered through the movement's internal postal system. This is very important when dealing with subscriptions, orders and membership payments.

If you do have to use the Post Office network, ALWAYS use RECORDED DELIVERY and keep your receipt safely.

While the constant interference with our post is irritating, this attempt to disrupt the NF, is a tribute to its growing effectiveness. So rather than moaning about it, all NF members and supporters must accept the hard work and discipline needed to make our internal communications network an efficient alternative.

# EUROPE — A BEGINNING

## Dollar \$ Imperialism

THE GREATEST danger faced by the nations of Western Europe is U.S. dollar imperialism.

The imperialism of America is particularly deadly because it is cultural as well as economic. Even countries not occupied by U.S. troops and nuclear missiles are being subverted by American "cultural" values - by coca-cola, junk food and Dallas.

This has had disastrous effects on Britain in particular. Just look around at our cities. Filled with inhuman tower blocks and alien immigrants, they are becoming indistinguishable from New York. The greatest single force for the nation destroying cancer of multi-racialism has been Hollywood and the U.S. music industry.

This cultural imperialism is the hardest to identify and the hardest to resist. But in some ways it is also the easiest to oppose. Simply to refuse to eat in a U.S. style junk food chain, or to listen to Michael Jackson or some similar product of American "culture", is an act of resistance.

## THE FORGOTTEN NATIONS OF EUROPE

ALMOST EVERY State in Western Europe includes within its borders at least one small minority European nation whose unique culture and way of life are gradually being strangled by creeping economic and administrative centralization.

Sometimes this is done with brutality, leading to a violent reaction. A good example of this was the long suppression of the ancient Basque nation in the north of Spain by the reactionary fascist Franco. Sometimes it is done by degrading and ridiculing the language of the minority nation. This was done for years to Welsh - the oldest language in Europe - and is still being done by the highly centralist State of France to the Breton nation.

The attempt to suppress such nations inevitably leads to tensions and unhappiness. The German minority in the Italian-ruled South Tyrol, for example, waged a guerilla war against

the Italian State during the 1950's. The Flemish inhabitants of the artificial state of Belgium greatly resent the favouritism shown to the French speaking Walloons who dominate that country's Establishment.

### UNITY THROUGH DIVERSITY

But even worse than the present violence and hatred caused by such oppression is the fact that, if it is successful, it destroys another part of Europe's identity, for that identity is largely made up of the wonderful diversity which exists among the nations of Europe.

Viewed correctly, this diversity is not a source of weakness, but one of strength. For by cultivating a real love of one's own native land and culture, one is best able to sympathize with people from another nation who have the same feelings. And to stand by them against a common external foe.

## Europe of the peoples

EUROPE is presently subjected to and suffering from the military imperialism of Internationalism in both its capitalist and state capitalist (marxist) forms. Western Europe is dominated by the USA and our East European brothers are similarly dominated by and subjected to Soviet imperialism and aggression.

Our beloved motherland is slowly suffocating under the weight of oppression, yet still Europe's Spirit and freedom lies latent in the hearts of her children, awaiting its awakening.

As well as in the western divide, the nations of eastern Europe are struggling for their freedom. This struggle, in a greater sense, heralds the coming of The Europe of the Peoples, which has also been termed, "Europe of the Hundred Flags".

From the small nations of Estonia, Latvia, and the Ukraine in the East, to the Basques and Ulster in the West, to a reunited Germany, a Europe of the Peoples shall emerge if Europe is to live and guarantee the freedom of her nation's and her people's.

A hundred flags shall flutter in the gentle breeze proclaiming national freedom within a framework of European consciousness and solidarity.

## RACE THE NATURAL ORDER

No.6

IN ONE sense at least, it is probably true to say that the National Front's policy on coloured immigration is its best known policy. Virtually every household in the country has come to understand that we oppose coloured immigration, that we reject the multi-racial society, and that it is our intention to repatriate, to return, these people to their own countries. Yet, whilst this is widely known, so much misinformation and lies have been added to it, by a combination of race hating ex-members of the NF and by media liars, that it amounts to a distortion of our true beliefs.

### A EUROPEAN AND WHITE COUNTRY

The basis of all these distortions revolves about just why we will institute repatriation. It is rare for our true reason for favouring repatriation to see the light of day. Rather, it is the views of our enemies - whether they be moronic bigots or Zionists in the media - which are always broadcast to the masses. They say that we argue: that the country is vastly over populated and, therefore, cannot absorb millions of immigrants. They say that we argue: that there are millions on the dole, and, therefore, we are merely importing a dole queue. They say that we argue: that immigrants smell, that they have 'blues parties', or that they are far more stupid than the so-called British 'master race'. They allege that, as a consequence of these 'arguments', we hate other peoples because they are a different colour, or have different customs.

But the fact remains that not one of these arguments is true in any meaningful sense, since they all miss the fundamental point: **THIS IS OUR COUNTRY. A WHITE AND EUROPEAN COUNTRY, AND COLOURED IMMIGRATION THREATENS ITS VERY EXISTENCE.**

It is perfectly true that this country is densely populated, and that the arrival of millions of immigrants aggravates the situation. But this is not the NF's reason for demanding repatriation. Even if there were only two million people in this country, instead of 60 million, we would reject immigration because this country is our birthright, handed down to us by the blood, sacrifice and love of our ancestors. **No-one is going to take this inheritance from us.**

Again, it is perfectly true that in a country suffering chronic unemployment, the immigration of millions of Third World people is merely importing a dole queue. But even if there were no unemployment, we would say "no" to immigration on the grounds that the land and resources of these islands are for the use of the British peoples, and them alone.

### NO TO RACIAL HATRED

It is not true that the NF is an organization motivated by hatred of others, merely because they differ. We reject and condemn the idea of racial hatred because it is a juvenile, unthinking response which is positively encouraged by the British State, which works against the interests of our people, and obscures the real reason why repatriation must be undertaken.

The NF can respect all peoples and cultures. We can say in all sincerity: China for the Chinese; India for the Indians; Palestine for the Palestinians. How can it be racial hatred, therefore, to say: Britain for the British?

Arguments that revolve around "smelly immigrants", "thick blacks" or "noisy parties" are pushed by conservative papers like the Daily Mail, not because they are interested in racial harmony, but because they want to keep whites and blacks at each others' throats. In this way, the real culprit - the British State which created the misery of the multi-racial society that has been a nightmare for blacks, browns, yellows and whites alike - will go unchallenged.

### RACIALISM - A WAY OF LIFE

So, in this first installment on Race and Immigration, please understand that the principal reason for us advocating repatriation is that we desire to keep this country white. We desire to retain its European traditions. We desire to maintain its spiritual, artistic and cultural heritage. We desire that the British peoples of these islands determine their own future and in their own way. Coloured immigration is a lethal threat to these objectives.

We wish the coloureds no harm, indeed we wish them well - in their own countries. The world will only gain a semblance of true peace when it accepts that there are unbridgeable differences of race, culture and nation between the peoples of the world. The multi-racialist, motivated by a seething hatred, tries to destroy this human diversity. The racialist, on the other hand, whether he be black, yellow or white, faces reality. All peoples prefer their own kind and their own customs.

The National Front intends to ensure that each of these ways of life is preserved in its proper setting - its own national territory. Racialism, therefore, is not negative, or a matter of hatred. Rather it is positive - a positive acceptance of real life. It is a matter of genuine love - a love of our people, our country and our traditions. It is a positive love of the natural order of things.

## The Basis !

### STATE OR NATION

To bring about the mutual respect Europe needs, we have to go further than friendship between, say, Germany and France, or Britain and Italy.

This is because in several of the European states there is more than one Nation. The U.K., for example, is made up of England, Scotland, Ulster and Wales. To bring about true respect we have to retain, and indeed encourage, the culture and customs of these individual countries.

In the past, notable Nationalists from these countries have turned against England, because it seemed that England was the source of the disgusting anti-Nationalist habit of trampling on peoples' lifestyles, without any thought for the identity of the nation concerned.

A prime example of this was the flooding of the valley of Trywryn in Wales, where Liverpool Council and the Westminster parliament decided to create a reservoir. The destruction of this beautiful valley and the flooding of the little village of Capel Celyn, justifiably created much anti-English feeling.

But obviously it wasn't an English decision, but an Establishment one. And despite the fact that the Westminster parliament is in England, most thinking Nationalists now admit that the Establishment there contains many traitors, fortune hunters and political opportunists of every race and creed.

### CORRUPTED

Now that the old Nationalist parties such as Plaid Cymru and the SNP, and Loyalist parties such as the OUP and DUP, have been corrupted by

becoming part of a completely corrupt system - the only effective movement which respects the cultures of all these nations is the National Front.

It is from this policy of cultural respect and unity in diversity that the Europe of the Peoples will eventually be born. For the problem of oppressed small nations does not only exist in Britain. There are the Bretons and others in France, the Flemish in Belgium and many more, all over Europe. And if the Irish government and Mrs. Thatcher get their way, they will put Ulster at the head of the list.

If we are to bring about the day when people talking about the world's future will say, "yes, but it all depends on what Europe decides to do", then it is time we started respecting all the Nations and cultures of Europe as equals. Only then can we begin to bring about a great new era for our land and for our Europe - **The New Beginning.**

## The Basis !

THE BASIS of the idea of a "Europe of the Peoples" is the fact that the "Nation" is not the same thing as the "State."

The Nation is a living being in its own right. Membership of a Nation is not determined by a piece of paper or a certain colour of passport. It is determined by a common ethnic origin, and shared culture, traditions and hopes for the future. Unless its people or their sense of identity are completely destroyed, a Nation is eternal.

A State, on the other hand, is a man-made and temporary organ of government. Its proper role is to serve the Nation, but it often becomes corrupt and its functionaries rule in their own interests instead of those of the people. Even worse, a State may become aggressive and use "its" people to conquer and oppress another Nation.

### ABSOLUTE RIGHT

Such imperialism breaks the basic law of Nationalism: that every Nation has an absolute right to rule itself and decide its own destiny.

The best known forms of imperialism died after the last World War, but three different kinds of this disease still threaten the nations of Europe today.

One half of Europe is crushed under the heel of the Red army; the other half is stupefied by the drug of American "culture". And within the States of Europe, many small nations and regions, with their own cultures, languages and traditions, are submerged by the dull conformity spreading like a cancer from capital cities such as Paris and London.

## ULSTER—

## A nation under heavy attack

prisoners is just one example of this.

### EXCLUSIVE

As NFN warned in its mainland exclusive last issue, the P.O.W. camp at Magilligan prison in Ulster has exploded in violence. Driven to desperation by the broken promises of the Northern Ireland Office and forbidden to receive visits from their own M.P.'s, Loyalist prisoners in the jail took the only course left to them by which to air their grievances.

As a prisoners' spokesman warned in our last issue, the government's obstinate refusal to listen to requests for basic human rights in the prison led to serious damage to prison property.

Things have calmed down again at present, but loyalist militants on the outside have warned prison officers that any further brutality towards prisoners could seriously damage the health of the warders responsible.

This is just one more step towards the complete alienation of the loyalist population from the traitors at Westminster and their collaborators in the police and prison service. It is not the end of the story, just another step on the road to a free Ulster.
